MERCKgroup.com

Dear Visitors, Contractors and Employees,

we are very pleased to welcome you to Merck. More than 10,500 people work at Merck headquarters in Darmstadt, the Group's largest research and manufacturing site.

In addition to infrastructure for production and sales, the premises also contain numerous buildings for research and administration, encompassing an area of more than one square kilometer.

As a chemical-pharmaceutical company, the plant must fulfill special, safety-relevant requirements. The site has its own fire department and security unit. However, it is important for employees, visitors, and contractors to resolutely comply with all safety rules and regulations. These rules and regulations are presented in the following.

Please follow the information and rules presented here.

Telephone Communication Center:

Internal: 10
External: +49 (0) 6151 72-0

Wireless Internet access

Merck customers and visitors can connect to the Internet in many buildings free of charge and without a password. To do so, select the "Telekom_Merck_Guest" WLAN network. You will automatically be forwarded to a Deutsche Telekom website, where you simply need to confirm access.

The data we record to produce and use company ID cards for contractors and visitors is stored and used confidentially in accordance with the data privacy regulations. No data will be transmitted to third parties without the explicit consent of the affected person.

Contents

- 3 Access to the site

Access to the site

Visitors should report to Visitor Reception in B31 – Innovation Center to receive their ID card; **contractors** should report to Main Gate W 50; **new employees** should report to Site Security in B31 – Innovation Center or to Main Gate W 50.

While on site, please make sure you wear your ID card in a visible manner at all times. When leaving the company site, please return your ID card to Visitor Reception (B31 – Innovation Center), the Main Gate (W 50), or at one of the turnstiles.

Transfer of your ID card is prohibited. Never grant a person without an ID card access to the site premises!

Loss of ID card: Phone: 06151-72 2772 (24h)

Dos and don'ts on the site premises

General bans

Pedestrians on the site premises may not write or read messages, such as e-mails or SMS, on mobile devices. Using the telephone is permissible while walking on the site premises but not while cycling or driving.

General rules, main warning signs, and hazard statements

Registration office for external persons

- Always register when entering the site
- Obtain work permit
- Sign out

These instructions also apply to the loading and unloading of vehicles.

Mandatory signs

Wear personal protective equipment as posted, and observe these and other mandatory signs!

Hazard pictograms warn against hazardous substances

- Do not touch
- Keep a distance

Beware of explosive atmosphere

- Use only explosion-proof equipment; recognizable by the EX symbol at the left below.
- „Ordinary“ mobile phones and smart-watches are prohibited.

CAUTION: forklifts

- Keep adequate safety distance – at least 5 meters.

Beware of electromagnetic fields

No entry for people with cardiac pacemakers!

CCTV video surveillance is in place in certain areas of the site premises and its outer boundaries.

What to do in an emergency
**First aid, rescue, and emergency
 telephone numbers**

**Follow emergency
 exits and escape
 routes**

**Report to
 assembly points**

**Eyewash,
 emergency shower**

**First aid/
 first aid kit**

Manual fire alarm

Fire extinguisher

**Fire department/
 rescue service:**
 Merck phone: **112**
 Mobile phone:
+49 (0) 6151 72-112
Report every accident!

What to do in an emergency
**How are you made aware of an
 incident?**

On the site premises, you will be **warned** by:

• **Sirens**

1 minute rising and falling wailing sound

• **Loudspeaker announcements
 by the company fire department**

• **Instructions/warnings from
 plant staff**

The all-clear is generally sounded by rescue and
 safety personnel using:

• **Sirens**

Continuo

• **Loudspeaker announcements by
 rescue and safety personnel**

• **Barrier removal**

Safe conduct

Strictly observe and follow the **instructions of rescue and safety personnel as well as plant staff and accompanying persons.**

Proceed to the assembly point

What to do in a car:

Close the windows and turn off ventilation/air conditioning. Park the vehicle so that escape routes are not blocked.

Do not walk or drive through **unknown liquids or solids** and keep away from visible dusts and smoke or vapor clouds.

Keep away from hazardous areas!

If the CO₂ alarm sounds, evacuate **rooms with a carbon dioxide fire-extinguishing system** immediately.
Risk to life!

Road markings and pedestrian paths

Red: Do not enter area; access for authorized persons only

- Operating areas
- Container storage locations

Yellow: Caution – hazardous areas!

- Pedestrian paths may be crossed by traffic
- Swing radius of doors
- Beware of forklift traffic
- The marked pedestrian crossings must be used at intersections and junctions to cross the roadway.
- Pedestrian paths are not crosswalks! Pedestrians do not have right of way.
- When making turns, drivers must be considerate of pedestrians.

White: General traffic areas

- Marking of pedestrian paths on asphalt surface.
- Pedestrians must always use the pedestrian paths!

The site map shows the main pedestrian paths that allow pedestrians to move around the site safely. The Suite Guide navigation app also takes into account the preferred paths and guides pedestrians past operating areas marked in red and not through them.

Use of vehicles on the site premises

**Maximum speed:
30 km/h**

German traffic rules apply
throughout the premises.

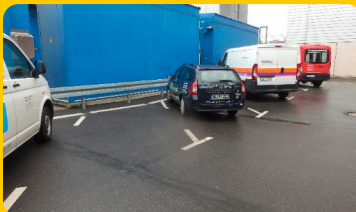

**Right of way at junctions:
Give way to traffic coming
from the right**

(Exception: exits from areas
with sunken curbs and from
operating areas marked with
bold red lines)

**Obey traffic signs and markings,
such as:**

- Caution: Rail traffic has right of way at the site
- Forklifts: Keep a safety distance of at least 5 meters
- No parking on pedestrian paths
- Park in designated areas only
- No parking under pipeline bridges, on hydrants, or on/in front of fire-fighting facilities
- No stopping at or beside areas marked as explosion zones

Buckle up!

Use of vehicles on the site premises

- No access for unauthorized persons
- The rule „Give way to traffic coming from the right“ does not apply at the following locations:

Areas marked with bold red lines

Site Security – company ID card

Use of the Merck ID card

- | | |
|---------------------|--|
| ID card | always wear visibly |
| Loss of ID card | Report to the company Security-Hotline
(Phone: 06151-72 2772) |
